Subject: RE COME FROM THE HEART

Hello Shepherd John Adebayo and Shepherd Sam,

As per our discussion today I am sending this email as requested. It is with deep regret that I have to do this, as you know I was not willing to give the details of the Shepherd involved, however after talking to Paulette and Ayo of the church I change my mind.

As I had mentioned I was recommended to the Church 2004 by a friend regarding a problem I was having. The problem was that my husband at the time ex-wife had worked witchcraft and split us up. When I met with the Shepherd he advised me that my husband will come back. However he said that I needed to go to Nigeria. I told him that I would not be able to go at the time. He then asked for money to send there, My friend Bro Vaughan gave him \$1,000.00 at first then he asked for \$700.00 to buy perfume it was given to him. He and the Shepherd in Nigeria claims that my husband would be back by December of that year, it did not happen. In 2005 the Shepherd in Nigeria advised the one here that I needed to come to Nigeria because the sickness is in me and I needed bath. by then I was very desperate so I decided to go. Shepherd advised me that I would have to pay his fare also for him to go along with me. When I advised him that I could not come up with all that money he got upset and said I could go along but he will have nothing to do with it because he would not be there to supervise the work.

I explained to him that it was not that I did not want to pay his fare but I was short on cash because I had been spending a lot of money prior to coming to him for help because I was very sick with the black magic. He then agreed to make all the arrangements for me to go with the Shepherd over there. He asked for another \$1,000.00 to send over there which I gave him. He also advised me to take another \$1,000.00 with me to give the shepherds, again I did.

I went in May of 2005 and spend two weeks there going up and down having baths.

I came back and started going to the church still no result. May of 2006 Shepherd went over there upon his returned he advised me that he brought back a special egg that he will use to work on me. again he asked for more money which I did not give him. he then proceed to say that I would have to sleep with him three nights in a row for this to work. He advised me to buy one meter of white cloth and something else, I cannot remember what. We started having sex on the Sunday night which was supposed to end on the Tuesday night, for the three nights I had to spread the white cloth under me to lay on while having sex, after the third night he took away the white cloth with him. The sex did not stop there because he claims that I had to have sex with him until my husband comes back. I was shocked however very desperate and would have done anything to have my husband back because I love him and was hurting very much so I agreed and advise to do whatever it takes.

After having sex with him for awhile he started to say that God do not want my husband to come back and there is someone else out there that can make me happy. I boldly told him no I do not want anyone else but my husband. Then the next time he told me that he loved me and could make me happy if I would be his woman. Again I told him no because he is married. He said that his wife was old and they only get married for his papers and he cannot get a divorce until after ten years or the France Government will take his papers back, besides they have both file for his children in Nigeria to go to France. I then advised him again that I do not feel right sleeping with a married man also the fact that he is wearing a ring. The next time I saw him he had taken off the ring and advise me that David and Solomon did it in the bible. To make a long story short he was always trying to convince me to forget about my husband and be with him and I continued to by into it and have sex with him.

While attending the church I started to hear rumors that he and another member Meredith was also having an affair at this time no one knew that we were sleeping together. That had disturb me and we started to have fights and issues, he would always denied it. I don't know what the white cloth was for but by then my husband memories started to fade away. The rumors with him and Meredith was still going on, when confronted him about it he claim that he would let everyone know that we are together however I was not ready for that because I was still disturb by his marriage. He told me that his wife was mean to him while in France because she threw a bucket of water on his alter in the house and told him to take it out of the house. I fell sorry for him then.

The final blow for me was when He A sister of the Church Paulette and her husband Chairman Tye went to Nigeria November 2006. upon there returned Paulette started to hinted to me about two wives but she did not come out clearly and told me that he had two wives living at his house in Nigeria. In December he thinking that she had told me, said to me that he knew that Paulette has told me about his two wives. I was shocked and divested. I was already having a hard time dealing with wife in France, the rumors about Meredith and now I had to deal with two wives. I was in a state of shock did not know what to say or do however luckily for me I was leaving the country the next day to go to Baltimore to visit with my family. For days I was in a state of shock. I said this was a man of God, how could it be.

He called me constantly while I was there. When I came back in January 2007 I told him it was over he would call and come over but we would not go to bed. However in February he came and end up sleeping in my bed, he tried to have sex with me but I refused. He came back the following week and we did have sex. I then told him that I could not have sex with him anymore while he is have sex with all these women. He claim that I will be the one with him, he will take me to Nigeria and France and I will see. The third week he came we had sex however at the end of it I was very furious that he keep coming and I keep letting him come, so I got mad and asked him if he will be sleeping with the two wives upon his visit to Nigeria also. I was shock when he said sure, why not they are woman and they lived in his house and continued to say that he cannot see the big deal about sex anyway because it is not if I am a virgin. I had to asked God to give me strength when he said that not to do something that I would have regret.

The next day I send him a few really bad emails as I will forward on to you. I am so hurting I still am having a hard time with all of this. I fell betrayed, used, lied to, deceived and abused. and worse of all now he is blaming me for everything saying that I asked him to be with him and because he refused that is why I am upset. I have a bath robe and toothbrush here for him still. The soap he used is still here also.

Before we started to sleep together he had told my friend Brother Vaughan that he love me and he should tell me that my husband will not be coming back, he also told him that his wife is old and they only got married for his papers. Bro

I have talk to a few members about the relationship with the Shepherd and Meredith and they agreed that I should bring it out in the open because it should not be happing due to the scandal that it may cause again. They claimed that before Shepherd came there they were two other Shepherds that came there of the Harvest and apparently she was sleeping with both of them so when she got pregnant neither wanted to claim responsibility without a DNA which she had refuse to do. Paulette claims that it was a big scandal in the church so they were afraid that her relationship with this shepherd may have mount up to the same. Paulette also claims that members left the church because of her. Karen from the church also confirm that He has been sleeping with Meredith, all these things bother me knowing that he is sleeping with her and sleeping with me, I also just found out that he was also sleeping with her sister. I am so ashamed and hurt. I cannot believed that I was used by the leader of the church. I did not went to bed until 4:30 this morning because I was talking to another member of the church by the name of Karen who advised me that I was not the first one he did this too and no one can talk to him because he tell them that he is the Leader.

I am so hurt that I am thinking of going to the news with it. If I had any idea that Shepherd was sleeping with other

God Bless,
